## Chas. R. Abbott Probable U.F.A. Choice for Lacombe

On December 15th the Lacombe Constituency U.F.A. will hold a nominating convention for the purpose of choosing a standard bearer in the forthcoming Provincial general election. The meeting will be held in the Church Hall, Lacombe, and delegates from all parts of the district will be present. Hon. Irene Parley, who has represented this constituency since the inception of the U.F.A. government, will not be before the convention, she having definitely decided to retire from public life. Mrs. Parley has been a most conscientious representative, and many will learn with regret of her retirement.

Several names are mentioned as possible candidates, but from conversations with U.F.A. adherents from various localities, Mr. Chas. Abbott, for the past twenty-five years a prominent farmer of the district, appears to be the likely choice.

Mr. Abbott is the convention's choice, the farmers of the constituency would have in him a staunch supporter. He has, through experience, a firm grasp on matters affecting the farmers; he knows their needs, and has always taken a great interest in Provincial affairs. He has been most active in the various farmer organizations, the Agricultural Society, Cattle Feeders' Assn., and in other ways has given splendid service. He has been elected by the government as representative for this part of Alberta on the new Marketing Board, where his intimate knowledge of conditions will make him an invaluable member. He was for years President of the U.F.A. Association, and has always been a most enthusiastic worker in the furtherance of the aims of that organization.

Mr. Abbott has a very pleasing personality, and numbers among his

## BENEFIT CONCERT MONDAY, DEC. 17

Owing to the fact that there will be no Relief Dance here this year, a number of local organizations have joined in promoting a Relief Concert. This concert will be put on in St. Andrew's United Church, on Monday, November 19th and all money received will be used for relief purposes.

Local talent of every kind will participate in this concert. There will be vocal solos, duets, quartettes, recitations, readings, instrumental numbers of every sort; in fact everything that goes to make up a real good concert.

This year there are many families in town and district in need of assistance, and therefore everyone should boost for this most worthy event. In many instances families are just able to scrape along on what they have throughout the year, but at this time of the year—Christmas time—a few little extras are needed and appreciated. Especially in families where there are children, a bit of candy, a few trinkets, warm clothing, mitts, etc., are always needed to make Christmas more enjoyable. It is for this reason that this concert has been arranged.

Tickets are now on sale at the small cost of 25c. When you are asked to buy one, remember that by doing so you will be making some Christmas money for the needy.

On receiving the filed judgment late Friday, Mr. Campbell instructed his counsel H. H. Parley, K.C., and S. Bruce Smith to take necessary steps to appeal the judgment to the Privy Council.

It is admitted in the majority judgment that not only were the defendants in the case not properly charged with the crime for which they were adjudged guilty, but that they were denied an opportunity to be heard in their own defence and to make answer to the charge.

The appellate division, while refusing to allow the appeal, refused to order Campbell and Cowper to pay the Crown's costs of the appeal.

Have you tried a Philco Radio? If not, you have missed the best.

Lacombe Furniture Store

## Rimber and the West District Report a Very Busy Season

Mr. Wm. Irvine, M.P. spoke at a meeting in St. Andrew's Hall on Monday night on general economic conditions existing in Canada. Mr. T. A. McDaniel was chairman and Miss M. Archibald of the Ponoka spoke briefly on the topic of "International Peace."

The Ladies of Bluffton and Rimber districts held their annual Christmas dinner and sale of home cooking in the Rimber Hall on Wednesday evening. As usual it was a big success and the sum of \$128.00 was the total receipts. Two hundred and fifty people partook of the dinner and the various booths were also well patronized. Mr. Thos. Wright won the fruit cake and Mr. J. S. Burke held the lucky ticket for a gentleman's watch.

Word from Mrs. Joseph Marshall who is receiving medical treatment in Edmonton, is to the effect that she is progressing favorably and hopes to be able to return to her home here at Christmas, much improved in health.

Miss Laura Hahm returned to Lacombe on Saturday evening for a two weeks visit with relatives in Rimber.

An epidemic of chicken pox has developed in the Rose school east of town and several cases of pink eye have been reported from the Potter Creek district.

A wedding of interest was solemnized on Sunday, Nov. 18th at the home of Mr. and Mrs. Leonard Chaffee south of town, when Miss Lorna Laye of Leduc became the bride of Mr. Harlan Chaffee. The young couple have started housekeeping in the groom's farm in the Willowdale green district. On Tuesday evening people gathered at the Chaffee home and presented the newlyweds with a magnificent shower of beautiful gifts accompanied by best wishes and congratulations from their hosts and friends.

A party of hunters who have been out west in the big game country for nearly two weeks returned to Rimber on Sunday with four moose and two deer to their credit.

Harold Voelckel, Lester Sander, "Rudy" Platt formed the party.

A group of young hunters left Rimber on Oct. 26th with a camping outfit, a wagon, two teams of horses and several boxes of food to hunt in the area of the "grub" have arrived back in Rimber looking happy over their bags of game. The party was composed of Victor Rimber, George Wright, Ronald Idinger, Marvin and Herbert Becker. The boys were out several miles west of Nordegg, and they had the time of their lives camping and hunting, and Victor says: "We wouldn't be home yet if we hadn't run out of grub."

The W. A. of the Church of the Epiphany is holding its annual bazaar, tea and sale of cooking and needle work, and what drive during the afternoon and evening of Friday, Nov. 30th.

The Bluffton Trail Rangers are manifesting their public spirit by mending discarded and broken keys for the various organizations to pack into Christmas hamper.

The Ladies Aid of the United Church held a silver tea at the home of Mrs. C. J. Hendt, on Saturday, Nov. 24th. The sum of \$3.50 was realized for the Christmas cheer funds.

Rev. Dr. Powell, superintendent of missions for Alberta, paid the Rimber district an official visit on Sunday, Nov. 18th, when he spoke at the evening service in Rimber, at the morning service at Lockhart and in the afternoon at Bluffton. Rev. Powell remained over for the Rally Service on Monday evening in Rimber.

The ladies of the three districts served refreshments following the program.

The Bluffton Valley Livestock Association shipped 198 sheep last week one of which was spring lamb weighing 180 lbs.

Frederick Johnson, the sixteen-year-old son of Mr. and Mrs. F. Johnson of the Leduc district passed away late Sunday evening, at the home of his parents, following an illness of several weeks. The funeral services were held at the home and interment made in the Rimber cemetery, on Thursday afternoon. The sympathy of the entire district is directed to the sorrowing parents in their loss of such a promising son.

A second death in the district last week occurred on Wednesday when Mr. Sanford W. Allison, one of Rimber's most prominent early settlers died in St. Paul's hospital in Rimber, at the age of 69 years. Mr. Allison who farmed extensively in this district since coming from the United States thirty years ago, was very well and favorably known. He was a kind husband and father and a good neighbor. He is survived by his widow, a sister, Mrs. O. German, and thirteen children, many of whom reside in the Rimber district. Mr. Chas. Raymond, of Lacombe, a brother-in-law of the deceased had charge of the funeral, which was held in Bluffton on Friday afternoon.

The residents of U.F.W.A. met with Mrs. George McDaniel east of town on Thursday. Nine regular members were present. An excellent talk on "Peace" was delivered by Mrs. I. Wiley of the Monte Vista district and the roll call was answered with Christmas recipes. The next meeting will be held at the home of Mrs. Fred Smith.

## A NARROW ESCAPE Proper Place To Start

That the ice on the various lakes is not safe yet for heavy traffic was demonstrated most forcibly by Gordon Brown, Jean Wilson and W. McCallum of Lacombe, on Sunday evening last when the Ford V8 in which they were riding broke through the ice of Barnet Lake. Believing the ice to be thick enough to support the car, they started out across the lake. When about 100 yards and from the crumbled beneath them and the car sank in about 12 feet of water. By winning down the windows, all three managed to escape after considerable difficulty. The car was taken out of the lake Monday and given the appearance of it those Ford cars sure take it. Various rumors are heard with regard to this car—some say the engine was still running Monday when hoisted out of the lake—others say the lights were still on—and still others say that the lights were on and the engine running. Outside of a bad ducking, the men are none the worse for their accident.

**SELF FEEDER SAVES WORK AND FEED**

On many farms "doing chores", or milking cows, feeding pigs, etc., is just so much work added to an already long day's work. This is particularly the case during the rush of spring seeding, and again during cutting and threshing. Many labour saving devices have been tried, and one of the most satisfactory is the self-feeder for hogs. Since the "Baldwin Quota" was started in July, 1932, the raising of hogs has been one of the most profitable branches of farming, and many more farmers would be keeping hogs were it not for labour involved.

At the Dominion Experimental Station, Lacombe, all growing pigs are self-fed. The advantages of the self-feeder are many and great. Filling the feeder only about once a week saves about sixty percent of the labour of hand feeding. Self-fed pigs make around nineteen percent higher daily gains, with only about eight percent more grain used; and this extra gain is more than compensated for by the reduced waste; they show more uniformity of size and greater finish than when hand fed. The reason for this is that where the pigs have constant access to the feed they eat less and, instead of getting on two or three big meals a day, Digestion is much better, and the smaller, weaker pigs are able to get their full share.

Plans for the construction of a self-feeder will be supplied by the Dominion Experimental Station, Lacombe, on request.

**LACOMBE BOYS CHAMPION BEEF CATTLE JUDGES**  
Royal Winter Fair, Toronto

At the Royal Winter Fair, Toronto, judging teams from all the Provinces in Canada met in the final judging competitions for the year's Boys' and Girls' Club work. This year there are 32 clubs, teams composed of two or three boys a day, and each team holds the championship of its Province in judging potatoes, grain, poultry, swine, dairy cattle or beef cattle.

Against this very strong competition the Lacombe Beef Cattle judging team, composed of Henry Magilton and Edward Cheesor, won the Championship for all Canada. They won by the comfortable margin of 31 points over the next highest team, with Edward Cheesor in fourth place and Henry Magilton making the high score of any of the contestants.

These young beef experts have had a long course of very careful training under Mr. H. B. Wilson, Assistant Superintendent in charge of live stock at the Experimental Station, Lacombe. Both boys are members of the Central Alberta, Shorthorn Club and during the last twelve months have visited many of the best herds in the Lacombe District, judging several classes at each farm visited. On October 18th, in the judging competition for Central Alberta, they were selected to go to Edmonton on October 23rd for the final competition for all the Alberta teams. At Edmonton they were thirty points ahead of their nearest competitors, so that with a lead of 31 points at Toronto, they were running true to form.

These two boys have again demonstrated that Lacombe is one of the outstanding live stock districts in Canada, and a great deal of credit is due to Henry Magilton and Edward Cheesor, and to their trainer, Mr. H. B. Wilson.

**CARD OF THANKS**  
Mrs. N. Graham and Mrs. J. P. Davis, wish to thank all those who assisted during the illness since the death of their beloved father William Godfrey Arnold, late of Kamloops, B.C.

Genuine Hudson's Bay Blankets, Ottawa Valley all wool blankets and large size Flannellette sheets all at saving at Lacombe Furniture Store.

## CURLERS NOTICE

Skips bringing in rinks of their own kindly hand the persons of rink in to Secretary. Anyone wishing to curl get in touch with the Secretary by December 25th.

C. E. Todd, Secretary.

## LACOMBE SKATING RINK

Ice makers are busy night and day making ice, making advantage of the cold weather. We expect to open the rink for skating next week. Season tickets for skaters are now on sale at Town Office and Dave Hay's store at the new low price.

Children 10 years and under ... \$1.00  
Students Tickets ... \$1.50  
Adults Tickets ... \$2.00

As perhaps you know the rink is being operated by the town for the first time since it was built and the Mayor and Council say they will put everyone on skates if lower prices, good ice and good music will do it. There will be skating three nights and three afternoons each week with band at home one night, probably every Wednesday night.

The rink was built and paid for by the Town of Lacombe in 1921 due to the efforts of Mr. C. B. Halpin, who was then Mayor, and a few other boosters. At that time it was the only covered rink between Edmonton and Calgary, and so we would ask everyone to come out and enjoy the best exercise known—skating.

## BOARD OF TRADE

The Board of Trade of the town will be held in the Town Hall, Lacombe, on Tuesday evening, December 4th, at 8 p.m.

Geo. B. DeLong, President.

## INFANT DIED IN FIRE

Thurs., Alta. Nov. 24—Grove, 3-month-old son of Mr. and Mrs. Metro Szewczyk, was burned to death when fire destroyed their home early Friday.

## THE PARENTS

The parents had both left the house at the time the fire started, they have been caused by an overheated stove-pipe, broke out. Metro, another child, 4 years of age, was able to escape from the house.

## Remarkable New Aid in Avoiding Colds—Samples Free at Local Druggists

Every Family in This Locality Offered a Free Trial Of Vicks Vapo-Rub For Nose and Throat—Also Of Its Ideal Companion, Vicks Vapo-Rub

### RESULT OF RESEARCH

New Aid in Preventing Colds Leads to Plan for Better Control of Colds

### PLAN EASY TO FOLLOW

Years ago, Vicks Vapo-Rub introduced the modern method of treating colds. Now, Vicks Chemists have developed the ideal companion to Vapo-Rub—Vicks Vapo-Rub—the new aid in preventing colds.

These two preparations, together with a few simple rules of health, form the unique Vicks Plan for Better Control of Colds. The helpfulness of Vicks Plan in reducing the number, duration and dangers of colds has been clinically tested by practicing physicians. (The Plan is fully explained in each Vicks package).

Here, briefly, are how Vicks Plan works:

To Help Prevent Colds

Watch yourself and children after exposure to any conditions apt to be followed by a cold—such as: Contact with others having active colds; crowded, public places; stuffy, ill-ventilated rooms—sudden changes in temperature, wet or cold, or unaccustomed exposures—excesses in living which lower resistance, such as over-eating, smoking, or drinking—after a hard day when you are overtired.

When it is not these that stuffy, muggy, irritation in the nasal passages where most colds start, use Vicks Vapo-Rub as needed—just a few drops on each nostril. And in time, Vapo-Rub helps to prevent many annoying colds, and to throw off colds in their early stages.

To Help Shorten a Cold

If a cold has developed, or strikes without warning, apply Vicks Vapo-Rub over throat and chest at bedtime. Through the skin, Vapo-Rub acts directly as a poultice. At the same time, its medicated vapors are inhaled with every breath direct to the inflamed air-passages. This combined action relieves the throat, opens the air-passages—eases difficult breathing—helps break up congestion.

During the day—any time, any place—use Vicks Vapo-Rub every four hours as needed. This gives you full 24-hour treatment without the risks of constant internal dosing, which so often upsets the digestion—especially of children.

Trial Packages Free

Each druggist has free combination packages containing trial sizes of Vapo-Rub and Vapo-Rub—also folder telling how these twin aids to fever and shorter colds are used in Vicks Plan for Better Control of Colds. Ask for yours today. As your druggist's supply is limited.

Peters. I'll own the whole place! Some springs and all," he added. "Old Carr said the Hour-glass, don't he?"

"He owns half of it," said Peters. "That's all. When old man Carr died, he left the Hour-glass half to Carr, his old partner, and half to his sister's son, one Gerald Keene. When Carr wanted to borrow half of the place, we had to look up the will. That's how I know I saw the will. It says that if either Carr or Keene dies, his half goes to the survivor."

"For the love of God!" "Say that again!" "Peters said it again and Dustin, sure that he had not misunderstood, let go a smoke-screen of profanity. It was but the jovial profanity of good-nature, but the vitriolic fervor of one who fears he has been hurt and who is not sure of the extent of the injury. In one brief kaleidoscopic moment the failure of his plans seemed sure. If Gerald Keene, the nephew of old Peter Vinton, owned half the Hour-glass then he, Sam Dustin, even if he succeeded in ousting Joe Carr, was only getting a new partner whom he did not even know.

He sized old Peters and whirled him about in the moonlight to face him. There was but one thing to be done. The much despised old Kane knew! That miserable old desert-rat could send him and Spike to jail for a half a lifetime and Joe Carr could keep him out of a fortune. The solution came in a sudden storm of ill-considered impulse.

"If you want to keep roof over your old wife's head," he snarled, "you buy up for me every scrap of paper that old Carr has signed. I want to own the half-share of the Hour-glass. Get me!"

Peters gaped helplessly at him. "I mean what I say, you old fool. Where can I find the man Gerald Keene? The man who owns the other half of the Hour-glass?"

"I don't know," Mr. Dustin. I swear I don't. Nobody knows. Even Mr. Carr don't know. He's been trying to find him through Mr. Burley of the Drovers Bank in Calo but he wrote us that he was handling Mr. Keene's business and that Mr. Keene was travelling somewhere and couldn't be reached just now."

Dustin granted disbelief but he could do no more at present. He had plenty of money in the bank and Peters knew it. There was no question of the validity of the check that Dustin wrote at the hotel desk and passed to the gray-faced little cashier who took it shakily. He pounced it, refused a cigar and headed for the bank feeling like a condemned criminal who has received notice of an unexpected reprieve.

"I'm sorry for old Carr," he muttered; "but I can't help it. I can't see Mame go to the Poorhouse and that's what'll happen if I don't get out that note. Oh, hell! What's the use kicking! But I wish I could put a spoke in Dustin's wheel."

He saw Pegram at the bank who was only too glad to get rid of Carr's note for Dustin's check and he turned that over to Dustin who promptly headed back for the Broken Spur. He found Spike anxiously awaiting him and he was drawn into the office by a nod from his partner.

"What luck, Sam?"

"The best in the world except for one thing. I found out that old Carr does not own all the Hour-glass. He owns half of it. The other half belongs to one Gerald Keene, nephew of old Peter Vinton. If either Carr or Keene dies, the other gets the whole place."

"Well!" said Spike who saw no further than the end of his nose. "You call it well, do you? Darned if I do. I can't get at this man Keene. No one seems to know his address. If I could find him, I'd offer to buy his share of the Hour-glass. One thing is sure now, though. We've simply got to find out from old Dad Kane the exact place where he located that ore."

"I hope you can shut his damned mouth," said Spike passionately. "Ed Raynor, the tax collector, was here for grub and old man Kane began shootin' off his face. He was stringin' in' Gay and Corse about what he seen 'em doing up in the hills. I don't think Raynor caught on to what he was sayin'... What you goin' to do?" he asked sharply for Dustin, with a sharp little oath, was heading for the bunk-house.

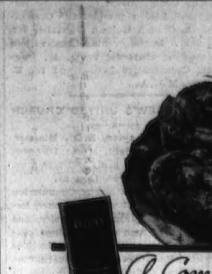

Old Dad Kane, standing just inside the door, was suddenly snatched off his feet, and was sent spinning against the wall. He turned like a flash and a rusty old six-gun, a cap and ball affair, was thrust under Dustin's nose.

"You keep your hands where they're used to bein'—in other words, quiet!" snarled the old prospector. "What you want? Hey?"

"To shut your fool head and to keep you from lettin' all the world in on what you found. You damned old fool! Don't you know that old word from Ed Raynor? He said a hundred men up Red Water? Come into the house. I want to talk to you."

Wholly angry, sweating, incoherent threats at every pore, Kane followed Dustin into the office. Once in the room Dustin turned on him.

"Look here, Dad Kane. You're very nice, but you're placating for the very best of reasons. It's all my fault. I just couldn't stand seein' our one chance of a fortune go glimmerin' just because you talk too damned much. I don't know just what you

A Combination Offer

In addition to the new Purity Flour Cook Book, sent postpaid for fifty cents, PURITY FLOUR now offers a new recipe file, containing eight convenient attractively illustrated envelopes ideal for filing recipes from friends or clipped from newspapers. Sent at a cost of only 25 cents, or combined with the Cook Book for only 50 cents. Write for your copies today, to Dept. 620, Western Canada Flour Mills Co., Limited, Toronto, Winnipeg, or Calgary.

## THE RHYMING OPTIMIST

By Aline Michaelis

### LIFE MOVES IN CYCLES

Life moves in cycles and all seeming change is but the glitter of the turning wheel. For there is no new thing and nothing strange.

Does the long passage of the years reveal?

There is no change. The Grecian Was clear as yours when she was glad and young.

Though now, between the pages of a book Her story dims in a neglected tongue.

Life moves in cycles. Helen once was fair.

As you to-day, for Paris' eyes to see As you for mine, and on your cheek you wear

No brighter beauty's banner than did she.

Though I could doubt your like has been before, Life wheels like stars, what has been comes once more!

Bigger And Better

Ocean Liners Have Become Last Word In Luxury

The new Cunarder is bigger than ever before, and there is no reason to think that it is any less luxurious. Shall we hear of it the story told of one of its fore-runners, also the "last word" of the day? On the day of departure the captain, ascending a gangway, met a venerable but unknown figure wearing the company's cap and uniform. "Are you of the ship's company, my man?" "I am, sir. "What is your rating?" "Please, sir, I'm the ship's gardener."—London Observer.

An ancient well, 250 feet deep, was discovered in Palestine several months ago, relieving drought in Palestine.

Argentina is trying to keep down all imports.

Little Helps For This Week

"He that loveth not his brother whom he hath seen, how can he love God whom he hath not seen?" 1 John 4:20.

Old friends, old scenes, will lovelier be, An note of heaven in each we see. Some softening gleam of love and prayer Shall dawn on every cross and care. —J. Koble.

It requires far more of the constraining love of Christ to love our cousins and neighbors of the heavenly family, than to feel warm to our suffering brothers in Tuscon or Madeira. To love the whole Church is one thing, to love, that is to delight in the graces and veil the defects, of the person who misunderstands us and opposed our plans yesterday, whose peculiar infirmities grate on our most sensitive feelings, or whose natural faults are precisely those from which our natural character most revolts, is quite another.

A Temple there has been upon earth, a spiritual Temple made up of living souls, a Temple with God for its light and Christ for its high priest, with wings of angels for its arches, with saints and teachers for its pillars, and with worshippers for its pavement. Wherever there is Faith and Love this Temple is—J. H. Newman.

Could Not Be Done

Uncle Tom: "So that's the baby?" Father: "Yes."

Uncle: "I hope you'll bring him up to be a conscientious, upright young man."

Father: "I'm afraid that'll be difficult."

Uncle: "Pshaw! As the twig is bent so is the tree inclined."

Father: "Yes, but this twig is bent on being a girl, and we're inclined to let it go at that."

Dagenham, England, public library has abolished fines on overdue books.

FOR COUGHS Colds, Bronchitis, Whooping Cough Mathieu's Syrup

W. N. U. 2071

Here's a tasty table delicacy for the Fall of the year—Apple Roll, made just at the season when firm, flavorful apples are at their finest. It's better too, when it's made with Purity, the high quality all-purpose flour. In specialties, as in staple baking, such as bread, rolls, pies and cakes, you'll find PURITY products always uniform.

Western Canada hard spring wheat from which it is milled is selected personally by PURITY FLOUR representatives. Its quality is maintained always at the same high level. Guesswork is eliminated, and when you use PURITY FLOUR you'll find that one brand, and that PURITY, is all you need for all your baking.

PURITY FLOUR BEST FOR ALL YOUR BAKING

### Pays Tribute To Explorer

Sweden Opens Museum In Memory Of Professor Andree

Sweden remembered Prof. Salomon August Andree, famed Arctic explorer, again on the 80th anniversary of his birth.

A new Andree Museum, containing diaries, photographs and numerous relics of his ill-fated balloon expedition, was opened, as the drama of the finding of his body, 33 years after he and two companions floated away to the North, was recalled.

Ashes of Andree and the two men who died with him, Nils Stromberg and Knut Fraenkel, will be given formal burial sometime this winter in North Cemetery at Stockholm. They were cremated after their discovery in 1930.

Canadian western sheep ranges produce annually from 150,000 to 200,000 lambs suitable for fattening purposes. In addition, there are at least 100,000 to 150,000 unfinished farm lambs that would benefit by being fattened.

Deaths from influenza were less numerous in England in 1933 than they were in the preceding year, due to the unusually sunny summer last year, according to medical authorities.

A noted New York lung specialist says that a man who sings at the top of his voice for an hour a day won't be troubled by chest complaints in his old age. He is probably won't even be troubled by old age.

Germany has perfected a dual-control motorcycle for instruction of new riders.

### Extending Air Service

Weekly Service Between Bermuda And New York To Be Inaugurated Soon

Arrangements have been made with the British air ministry and the government of Bermuda for the start of a weekly air service between New York and Bermuda as soon as the necessary equipment is available.

In this new venture the company will co-operate with Pan American Airways of the United States.

The report also says expansion of the main route from Singapore to Brisbane, Australia, will be in effect in December. This service, from London to Australia, will be the longest air line in the world, roughly 12,000 miles.

A huge increase in mileage flown during the year ended in March is reported, the total being 2,354,170 miles.

A noted New York lung specialist says that a man who sings at the top of his voice for an hour a day won't be troubled by chest complaints in his old age. He is probably won't even be troubled by old age.

Germany has perfected a dual-control motorcycle for instruction of new riders.

## CONSERVATIVE CONVENTION

The Conservatives of Lacombe riding will hold a nominating Convention in Church Hall on December 6th, at 2:30. In the evening there will be a meeting addressed by D. M. Duran, Conservative Leader and W. E. Payne, M.L.A.

## ST. ANDREW'S UNITED CHURCH

Rev. R. B. Layton, B.D., Minister  
Mr. L. D. Wright, Music Director  
Services at 11 a.m. and 7:30 p.m.  
Sunday School at 11 a.m.

Over two years ago a Commission headed by Mr. Robert A. Baker, President of Toronto University, and composed of men of high standing, was appointed to ascertain the principles which affect, or should govern the Social Order. Their report, which is a remarkable document, is now before the public, and a study of it will be begun next Sunday evening. Its findings should be studied by all who are interested in our present social order, and this opportunity is given to such persons to come and consider it.

## SPRUCEVILLE NEWS

There will be a dance in the Hall on Friday night, the 30th. Music by Wright's Orchestra.

There was a Congregational meeting at the home of Mrs. W. P. Young, on Monday evening, after the business was disposed of, a social hour was spent and a dainty lunch was served by the Hostess.

Spruceville School are making preparations for their Xmas Concert, which will be held Friday evening December 21st.

Mr. and Mrs. Hall entertained a few of their friends to a turkey dinner on Tuesday evening.

Mr. and Mrs. George and daughter of Alex spent Sunday with Mr. and Mrs. Boyd Crocker. Miss Hemple is staying over for a few days with Mrs. Crocker who has been quite ill.

Mrs. English is leaving on Friday for a few holidays in Calgary.

The Busy Bees will hold their annual meeting on Friday evening, Dec. 7th at the home of Mr. and Mrs. O. S. Young. We would like to have all the Young People of the district to be there.

## BOXING CARD AT RIMBEY

FRIDAY, December 7.

A real boxing match will be staged in the Rimbey Hall on Friday, December 7th. The main bout will be a 16-round go between Leroy Clayton, well known Rimbey fighter and Jules Verquin, of Calgary. This bout will be extremely interesting as both men are first class boxers with plenty of ring experience. Dorsey Clayton, a Rimbey boy, has never been defeated during his long career as a fighter. Clayton weighs in at 175 pounds. Jules Verquin, who hails from Calgary, although six pounds lighter than Clayton, weighs in at 169 pounds, should give Clayton a real battle. Verquin was former Lightweight Champion of France, and is well versed in ringcraft.

Tommy Burgess and Don Wells, two fast lightweighters will battle in the 6-round Benny Windup. Tommy Burgess is from Calgary and weighs in at 135 lbs. Don Wells is a Red Deer boy and also weighs 124 pounds. Both these fighters are well known. There will be two preliminaries, one between Bill Ferrell and Billy Thompson and Kid McInnis and Mike Chaney. These four fighters are in great shape and these bouts should be good.

Pete Holm, well known boxer will referee the matches and everyone knows that with him as referee all decisions will be fair and impartial. Ringside Seats \$1.50; Rush Seats \$1.00 Tax Extra.

For reservations phone 7, The Cottage Hotel.

Dance after the fight with Rudy's Peerless Orchestra in attendance.

## LADIES' CURLING MEETING

All ladies wishing to curl this year please attend the meeting to be held in the Curling Rink, Saturday, Dec. 1, at 8 p.m. Those who can't attend the meeting please phone the Secretary, Lida McClary before that time.

## TO POULTRYMEN

A meeting of the Accredited Poultry Association will be held in the Town Hall, Lacombe, on Wednesday, Dec. 5th at 2:30 p.m.

W. H. Gilday, Secretary

**TWENTY-FIVE CATTLE  
PERISH IN BLINDMAN**  
Mr. O. W. Hueschle, owner of the M.D. of Crown, suffered a heavy loss on November 4, when twenty-five of his cattle which had been pasturing near the river, were stampeded into the Blindman. They were caught in the fog forming on the river and were unable to escape. It is probable that the cattle were alarmed by some animal. One cat was found by November 4, and were all dead but 4 when discovered.

## BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form, of the Bank's

## ANNUAL STATEMENT

31st October, 1934

LIABILITIES	
LIABILITIES TO THE PUBLIC	
Deposits	\$630,218,895.10
Payable on demand and after notice	
Notes of the Bank in Circulation	35,255,876.00
Payable on demand	
Bills Payable	185,183.19
Time drafts issued and outstanding	
Letters of Credit Outstanding	6,522,749.56
Financial responsibilities undertaken on behalf of customers (see offsetting amounts in "Assets")	
Other Liabilities to the Public	10,386,724.35
Items which do not come under the foregoing headings, including \$1,000,000 advance from the Dominion Government under The Finance Act	
Total Liabilities to the Public	\$682,569,368.40
LIABILITIES TO THE SHAREHOLDERS	
Capital, Surplus and Undivided Profits and Reserves for Dividends	76,538,810.08
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$759,108,178.48

## RESOURCES

To meet the foregoing Liabilities the Bank has	
Cash in its Vaults and in the Central Gold Reserves	\$ 87,210,888.26
Notes and Cheques on Other Banks	28,670,917.74
Payable in cash on presentation	
Money on Deposit with Other Banks	16,764,669.62
Available on demand or at short notice	
Government and Other Bonds and Debentures	317,936,912.23
Not exceeding market value. The greater portion consists of all-gilt securities which mature at early dates.	
Stocks	105,789.95
Railway and Industrial and other stocks. Not exceeding market value.	
Call Loans outside of Canada	32,133,844.20
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing money quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	8,399,657.67
Payable on demand and secured by bonds and stocks of greater value than the loans.	
Bankers' Acceptances	26,528.08
Prime drafts accepted by other banks.	
TOTAL OF QUICKLY AVAILABLE RESOURCES	\$491,247,207.75
(equal to 71.97% of all Liabilities to the Public)	
Other Loans	243,477,041.21
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
Three properties only are carried in the names of holding companies; the stock and bonds of these companies are actually owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate and Mortgages on Real Estate Sold by the Bank	1,487,975.10
Acquired in the course of the Bank's business and in process of being realized upon.	
Customers' Liability under Letters of Credit	6,522,749.56
Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not included in the foregoing	1,873,204.86
Making Total Assets of	\$759,108,178.48
to meet payment of Liabilities to the Public of	682,569,368.40
leaving an excess of Assets over Liabilities to the Public of	\$ 76,538,810.08

## PROFIT AND LOSS ACCOUNT

Profits for the year ended 31st October, 1934, after making appropriations to Contingent Reserve Fund, out of which Fund full provision for Bad and Doubtful Debts has been made	\$4,103,024.34
Less Dominion and Provincial Government Taxes	\$90,634.83
Dividends paid or payable to Shareholders	\$2,880,000.00
Reserve for Bank Premises	100,000.00
Balance of Profit and Loss Account, 31st October, 1933	\$22,436.91
Balance of Profit and Loss carried forward	\$1,893,421.28
	\$1,893,421.28

CHARLES B. GORDON, President

W. A. BOG, JACKSON DODDS, Joint General Managers

The strength of a bank is determined by its history, its policy, its management and the extent of its resources. For 127 years the Bank of Montreal has been in the forefront of Canadian finance.

## PAINFUL ACCIDENT

Jimmy Harris, 18 years old was taken to the Lacombe Hospital yesterday, suffering from painful injuries received while oiling a pump-jack. In some unaccountable manner his glove became entangled in the gears of the machine and his hand drawn into the gears. His thumb was torn off in the mishap.

Give the family a Victor Odeon-Trotter for Christmas. Hear them at Sweet's Pharmacy.

## ROOSTERS FOR SALE

Purebred white Wyandotte Roosters for sale. April hatch 60c; May hatch 75c. Apply H. L. Olson, 57 1/2 miles east of Lacombe on Alx Highway.

## BANK OF MONTREAL MAINTAINS REASSURING LIQUID POSITION

Strong in all departments, the Bank of Montreal is forwarding to shareholders an annual statement that reveals a reassuring position, which appears elsewhere in this issue. As has been the practice for the past few years, the Bank has issued the statement for the public in an easily understandable form, with explanatory notes for each of the headings under which the figures are grouped. The report will be submitted to shareholders at the annual general meeting, which will be held at the Head Office of the Bank of Montreal on Monday, December 1st.

## WOMEN'S INSTITUTE

The regular meeting of the W.I. will be held on Saturday, Dec. 1st, at the home of Mrs. C. E. Todd. Annual Reports, Election of officers. Committee: Mesdames: Millard, Skander, Jenkins and J. Roberts.

**AT THE AVALON**  
"MAN'S CASTLE"  
Beginning Monday

Out of the masses, and townships of a shantytown director Frank Brown has written a love story that is certainly the greatest achievement in a career that embraces many, many screen triumphs. The picture, "Man's Castle," already hailed as the "Seventh Heaven" of talking pictures will show at the Avalon this week end.

"Man's Castle" is the story of a man who couldn't bear his wife without wanting to buy a freight-car of a girl who loved him so strongly he told him he was free to go. Spencer Tracy as the boy, and Loretta Young as the girl have never been cast in roles so perfectly suited to their individual talents. They perform admirably and contribute the finest portrayals of their respective careers. As for Brown's direction, it entitles to say this he surpassed in cleverness, directness and beauty his direction of "Seven Years' Itch" and "Farwell to Arms."

The supporting cast is superb down to the smallest bit player. It includes: Marjorie Hombard, Walter Connolly, Gladys Henson, Arthur Hall and Dickie Moore. Joe Swerling adapted the story to screen form from Lawrence Sanders' original story and turned in an excellent script.

Coming: "The Last Man" as "As the Earth Turns," Dec. 8, 7 and 9. "Bakino" Dec. 10, 14 and 15.

**Here and There**

A further concession to the travelling public is announced by C. P. Riddle, Chairman, Canadian Passenger Association. In the statement that in future one-month round trip railway tickets previously good for continuous passage only between departure point and destination, will be valid for stop-over at intermediate points going and returning. For many years Canadian railways have been selling one-month round trip tickets at twice the one-way fare, less ten per cent. good for continuous passage only. Now the stop-over privilege is granted without any increase in fare and passengers deciding on route to stop over, may do so on application to the conductor. This concession, it is felt by railway officials, will do much to further promote travel by rail in Canada.

W. B. Allison, manager of mail and baggage traffic, Canadian Pacific Railway, has been elected vice-president of the American Association of General Baggage Agents, completing representation of all the railways on this continent.

H. C. Groat, general superintendent, Ontario district, of the Canadian Pacific Railway, has been promoted to the post of assistant to the vice-president with headquarters in Montreal. Mr. Groat is a well-known and popular official of the railway in Ontario, trip operator by train has been stationed for a number of years.

Figures issued by the Dominion Bureau of Statistics dealing with operations in August of all steam railways in Canada having annual gross revenue of at least \$500,000, reveal that higher gross earnings were offset by increased expenses, including an expansion of over \$500,000 in payrolls.

Mrs. A. A. Adams, of Oak Bay Mills, Que., has been awarded first prize in the most beautiful Maple Leaf contest conducted this season by the Canadian Pacific and Canadian National Railways. More than 10,000 specimens were submitted. The largest leaf phase of the contest was won by Richard Chambers of Vancouver, who submitted a specimen with an area of 22 1/2 inches.

Five hundred school-age boys and girls of Montreal recently took advantage of the unique situation in the Parliament Buildings by Rt. Hon. R. B. Bennett, Prime Minister of Canada. Sight-seeing automobile trips across Ottawa included inspection of the Houses of Parliament, the Memorial Tower and Hall of Fame, and a special recital of the 53 bells of the famous Carillon Tower.

Bob Murray, Quebec's No. 1 tennis player, and Laird Watt, second ranking provincial player, were singled out for praise by "Big Bill" Tilden, who sailed recently by the Empress of Britain for England. "They are championship players in the making," said the one-time world's champion.

Five cruises in one may be made this winter on the Empress of Australia sailing from New York January 12. They are: the Mediterranean Cruise, the East African, South African, South American and West Indian. There is a full week in Egypt, numerous stops on the east coast of Africa, 12 full days ashore in the Union of South Africa, four stops in South America and return via Trinidad, Jamaica and Cuba.

**Do not miss this opportunity**  
**DON'T MISS THIS OPPORTUNITY.** The Quaker Oats Co. is conducting a contest, and is giving away 1000 beautiful bikes, to boys and girls throughout Canada. S. M. Murray will give to the boy and girl of Lacombe and district an extra prize of \$5 in cash in addition should a winner be announced in the Lacombe district. provided that the winner of the bike bought the package of Quaker Oats at Murray's Store. Call and get the full particulars of this contest without delay.

Table Figs, fancy quality, lb. 25c.  
Pineapple, glass, fancy quality, slice 25c.  
Fruits and Peels for Christmas Cooking—All of the Finest Quality

## Greatest Hunt For Gold In The History Of Canada Has Been Carried On Over Wide Area

A season that brought what is believed to have been the greatest hunt for gold in Canada's history is drawing to a close. No figures are available to show the exact number of prospectors and assistants who struggled through the inhospitable country, but a careful approximation indicates a total of about 18,000.

Increased prices for the yellow metal spurred prospectors' activity. An added factor was extensive use of aeroplanes, which provided access to new districts and revealed existence of still more. Aerial photography, it is said, has revolutionized the metal-mining industry.

Pictures taken from speeding aeroplanes tell experts much. The topographical survey of the Department of the Interior during 40,000 aerial photographs during the summer. From these, most of them taken in Northern Manitoba, Athabasca, Great Bear and Great Slave regions and in the Nahanni district near the Yukon boundary, maps are being developed.

Planes of the Royal Canadian Air Force, carrying aerial surveyors made flights over the famous Long Lac district in Northwestern Ontario. Some flights were made in other provinces. Much of the aerial photography this year was designed to help gold prospectors.

Luck, prospectors and geologists say, is still the most important factor in the hunt for gold and less valuable metals. Once a trace is shown down, its roots top up the surrounding soil and bare it developed to be one of the richest veins ever discovered in Canada. Last summer a prospector stopped on the shore of a lake because a high wind endangered his canoe. While he waited for the storm to abate he discovered what is regarded as one of the most important finds of the year. Such incidents are said to make prospectors superstitious.

Aerial photography has removed some of the chance from prospecting. It tells the field man what rocks contain gold and the territory where the soil, or what miners call "overburden," is too deep for them to find workable veins, even if the district. They then concentrate their efforts where it is most likely to succeed. Pictures show granite formations in which metals are seldom found, and on the other hand, indicate geological "traps" and great fractures where possible mineralization is more probable.

Stereoscopes placed over the pictures show the valleys and hills in relief. After discovery of a vein a study of the pictures helps in development, as it shows the contour of the country and indicates the best route for a road and most advantageous location for a mill.

In the files of the topographical survey 600,000 negatives are kept, and a sufficient number of prints are available to prevent any possible shortage.

### Got What She Wanted

Action Of New York Girl Would Seem Justifiable

Another "case" of an individual bucking the lines of big business is told us by a young lady who wanted six buttons. Simply six buttons of a certain size. She found the type she wanted at Altman's, but told the girl she needed a size larger than those on display. The girl asked her what color, and our young lady said the color didn't matter, because she was going to cover them with cloth. Altman's covered buttons, the girl said, and wouldn't be pleased to do the covering. The young lady said she'd like to cover her own buttons, please. In that case, the girl said, she couldn't sell the buttons. Altman's never sold buttons for covering. Then our young lady drew herself together and told a little white lie. She would take six buttons, and wouldn't ever dream of g-covering them. The girl sold them.—The New Yorker.

### More Radio Sets Sold

Not only were the radio sets sold in Canada during the first six months of 1934 more numerous than the sales during the same period of 1933, but they were also more expensive. The total value was \$2,165,000, compared with \$1,627,000 a year ago, the average value (factory prices) being \$34 and \$28 respectively. Over \$500 of the sets sold were for automobiles.

The yellow meal worm is a pest that is easily dealt with in winter time in Canada with the meal or flour placed outside in a proof receptacle, so temperature will kill all the pests in a night. If the temperature does not go below 20 degrees Fahrenheit, it is better, says the Dominion Entomologist, to leave the food out two days.

Great Britain's Ireland produces only enough meat to supply London's population with 2 1/2 ounces of beef, 2 1/2 ounces of mutton and lamb, and 2 1/2 ounces of pork per head each week.

Approximately one of every seven Eskimo men has an extra rib.

W. N. U. 2011

## Fortifications In France

Stretch From Swiss Border To The English Channel

Philipp Oppenheim, who has been writing stories of international intrigues for over a generation, has recently written a story about a man who brought about personal peace by having France develop a system of defence which made attack impossible.

France seems to have something of the same idea itself, for since the year it has been building up fortifications which it believes to be invulnerable, even for modern heavily equipped armies, and which stretch from the Swiss border to the English Channel, brief even the territory along the Belgian border so that in any future war the whole burden of defence in that area will not be thrown upon Lille, Picardy.

Oppenheim had his fortifications along the Franco-Italian border, but the principle is the same. Some of the fortifications are on a scale that makes concealment impossible, but others are hidden from the naked eye. Mile upon mile of peaceful-looking fields, save a corresponding, of gentle slopes or ruseed hills have below their surfaces nothing less than underground villages, sunk at such a depth that no gun could threaten them. Some are even equipped with underground railways. There are underground barracks with electric lighting and cooking equipment, and there are even doors to shut out fire and water, while the air pressure can be brought up to a point that threatening gases can be kept out.

More than that. They will be defended by a force hurriedly assembled from all corners of France, but by reservists from the region in which they are situated, reservists who know their whole story and design and who can step into their trenches at a moment's notice.

Treaties and League of Nations are all right, but France has something more to rely on.—Sault Daily Star.

## Tower Of London Shipping

Every Movement Toward River Thames Carefully Charted Inch by Inch The Tower of London is slipping towards the river Thames. Although the authorities say they are not alarmed, every crack is being carefully watched, and every slip meticulously noted.

While the quay well movement is away from the river, that of the Ball Tower is towards the river, and the movement of each is at the rate of about one twenty-fifth of an inch a year. The Tower is built upon slippery blue clay.

Every befeater in the Tower is assigned to watch the walls, and at the slightest sign of a crack the Clerk of the Works is informed, and he in turn notifies the National Physical Laboratory.

Worthwhile there arrive on the scene experts who fix steel pins in the cracks—the befeaters call them tell-tales—by means of which a tenthousandth part of an inch movement can be detected.

At first it was believed that the movements were induced by the action of the river tides, but this is not the case. The movements are not altogether general in their relation one to the other.

The Tower is slipping, but it will be many a long day before it topples into the river—if ever it does.

## When Is A Weed Not A Weed

A Harmless Weed In One Country May Become A Pest In Another

In view of the ill-omened examples of the blackberry among plants and of the rabbit among animals, it is not surprising, says the Imperial Economic Committee in its report on grassland weeds, that stringent precautions are now taken, against the introduction of such "undesirable aliens," but only the event can show how the exotic plant will behave in its new home. What is a comparatively harmless weed in one country may prove a serious pest in another, and it is also true that what is harmful or useless in one country may be in a different environment, harmless or even useful. Alike in Canada usually contains a quantity of trefoil which in Canada is condemned as a weed, but which assists the export of Canadian alfalfa to the United Kingdom, where in many localities trefoil is regarded as advantageous. Similarly, several European annuals, which are regarded as weeds in the United Kingdom, have been introduced in the less densely populated areas in some districts in Australia.

Black creepers, such as the original model, is especially characteristic of its white metal threaded crepe trim. Wool crepes, novelty crepe silk, rayon crepes, velvet, etc., are all made in factories for this easily made model.

Style No. 956 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 3 1/2 yards 38-inch material with 1/2 yard 35-inch contrasting.

Price of pattern 20 cents in stamps of coin (coin is preferred). Wrap coin carefully.

## LAUNCHING OF THE "QUEEN MARY"

A splendid view of the launching of the Cunard White Star Liner, Her Majesty, Queen Mary, very graciously performed the ceremony of naming the new vessel. Our photograph shows the great size of the ship, which has an overall length of 1,018 feet. The height from the keel to the masthead is 254 feet.

## Family Life In Russia

May Be Wrecked By Duty Of Citizens To State

A wholesome family life holds any race together. Nations crumble when the sanctity of the home is disregarded or social laws are abrogated. It is not unlikely the Soviet Union of Russia may smash on that phase alone for the Bolsheviks or new leaders there are playing with fire.

In discussions in Russian newspapers the young communists are asking if it is possible to continue the family organization and at the same time discharge their regimented duties to the state. The burden of the correspondence is the complaint that the amount of work required of citizens by the community leaves neither men nor women sufficient time to develop a wholesome and affectionate family relationship. Some frankly ask why, if it interferes with the state, the duties imposed by the state, family life should not disappear, at any rate for the present. The appalling implications of this suggestion show how far the process of regimentation has diverted the mind of Soviet youth.—Brandon Sun.

## All Canadian Material

Minerals From North Form Part Of Pastoral Staff

Of Canadian design and workmanship was the pastoral staff recently presented by the Hudson's Bay Company to the Rt. Rev. A. L. Fleming, D.D., first bishop of the Arctic. Metals latest used in the staff were silver from northern Ontario, copper from the Coppermine river, and iron pyrites (sometimes called fool's gold) from Baffin Land. Sir Martin Frothingham, noted English explorer, in 1878 loaded up his ship with the last named metal and took it to England believing it to be gold.

The South Atlantic ocean contains islands which sealers have used for years, but have never seen. They are in a perpetual fog.

Undaunted by the lack of snow in Australia, youths of Sydney are skating on sandhills.

The zimb is a fly exceedingly destructive to cattle in Abyssinia.

## Dangerous Policy

Restoration Of The Dead Experiments Should Not Be Applied On Human Subjects

Raising of the dead is no great feat in the opinion of Professor Velyen E. Henderson, chief of the department of pharmacology at the University of Toronto, but is a dangerous practice when applied to human beings.

Dr. Henderson revealed university research workers frequently had restored to life animals apparently dead for as long as eight minutes, not as a trick to raise them from the dead but because success of experiments often depends on the subject remaining alive.

Animals such as dogs and cats, he said, had frequently been restored after overdoses of anaesthetics apparently killed them. The same method of restoration, he declared, had been applied to human beings killed by carbon monoxide gas poisoning, but the subjects frequently became idiots.

"We get these carbon monoxide cases," he said, "but the brain has been impaired and, in this respect, this tendency becomes more and more pronounced."

## Indian States Pay High Tribute To Lord Willingdon By Erecting Statue In His Honor

### B.C. Salt Fish

This Is The Latest Commodity To Come Under Marketing Act

Salt fish from British Columbia waters is the latest commodity to come under a marketing scheme. Announcement was made of the approval by the cabinet of a scheme for the marketing of salt herring and salt salmon produced in British Columbia.

The Dominion marketing board under the Natural Products Marketing Act has a number of other schemes under consideration, including livestock and poultry schemes for Western Canada.

British Columbia, however, leads all provinces in taking advantage of the act, for besides its salt herring and salmon products it now has its red cedar shingles and its tree fruit under regulation of marketing boards.

The scheme was adopted on the application of the meat, oil and salt fish section of the Canadian Manufacturers' Association in British Columbia. The local marketing board will consist of two members appointed by the organization, two by Canadian Salt Fish Exporters, Limited, and a chairman to be appointed by the deputy minister of fisheries for Canada.

The local board will have power to regulate the time and place of the marketing of the regulated products and the quantity and quality to be released for marketing. It may also conduct a pool for the equalization of returns.

The livestock scheme is proposed by the Saskatchewan Co-operative Livestock Producers, Limited, and applies only to that province, but similar schemes are being prepared for Manitoba and Alberta, and all are designed to fit into a general plan to control livestock marketing over the whole of Canada. Options of the producers are being sounded out before proceeding further.

The provincial boards would be linked through a sales agency and all products apart from those for local consumption would be handled by the sales agency. All producers would be registered, all sales pooled and all packers and dealers, whether wholesale and retail, licensed.

### Indian States Pay High Tribute To Lord Willingdon By Erecting Statue In His Honor

It is an honor almost unique that the princes of the Indian states are paying Lord Willingdon, viceroy of India. They have subscribed funds with which a statue in his honor will be erected in New Delhi—"to express." In the words of the official announcement, "the high esteem and regard in which the Viceroy is held by the princes generally and to commemorate his long and distinguished connection with the country."

The success of Lord Willingdon's service as governor-general of Canada led his friends to believe he had the qualities demanded by the much more onerous responsibilities of his Indian post, and they have not been disappointed. In this Dominion he displayed democratic dignity, was an upholder of tradition, but not a stickler for form. His authority did not rest upon conventionality, nor was his influence bound by the limits of his high office. He went to the trouble of learning Canada, of understanding the Canadian viewpoint, and in every branch of his public service he had the extremely competent support of his subordinates.

In the larger sphere of Indian affairs Lord Willingdon has demonstrated by these same qualities—and by a happy and rare combination of firmness with tact—his right to be ranked with the great pro-consuls of Britain. When he went to India, something more than three years ago the country was rent with disorder, the fanatic Gandhi was a power in the land and the centre of disaffection and unrest, and there was serious resistance to the British plan of broadening self-government of the Indian people as they were educated to accept responsibility for their own administration. Since that time the Viceroy has not done anything spectacular, but the picture he has painted is a vasty different one. Gandhi is in eclipse, his following largely gone. The country is peaceful, rarely finds its way into the news columns.

And this has been accomplished, we imagine, largely because Lord Willingdon is tactful and subtle in his conduct, because it is known he will not tolerate injustice, because his policy in India, as in Canada, is founded on common sense.—Ottawa Journal.

### Leads In Literary Output

Russia Claims Production Of Greatest Number Of Books

Soviet Russia, a generation ago the most illiterate country of Europe, has been assessing its literary achievements and to-day boasts that in the production of books it has surpassed not only every other nation, but even the United States and Germany combined.

Just recently 600 Soviet authors met in the first All-Union Writers' congress, and laid down the general lines of Russian literature for the future.

In connection with their meeting, figures have been published that show the vast progress the Soviet has made in book publishing since the revolution.

Not less than five million books have been issued within the past 15 years. Within the past five years the circulation of the writings of Maxim Gorki, the Soviet laureate, has been 18,865,000 copies.

Sholokov, author of "Belli Flows the Don," has sold 2,106,000 books. And even poetry, ranking well below prose in other countries, has vast popularity in Russia. Official figures place the circulation of Demyan Bedny's verse at 7,400,000.

### A Paying Advertisement

Exhibit At 1893 Exposition Pan Canadian Cheese On Map

The Columbian Exposition in Chicago in 1893 gave Canada the opportunity to "put across" the most effective bit of advertising in her annals," according to the Perth Courier, which recalls the event in its own centennial issue. It was decided to make an exhibit that would "occasion so much comment that Canadian cheese would be known the world over." Consequently, the cheese factories about Perth were appealed to, and in three days sufficient curd was collected to produce a cheese that weighed eleven tons, 207,500 pounds of milk being required. A special truck was built to convey it to Chicago, and its progress "was like the itinerary of some prince or potentate." When the exposition ended, it was disposed of to the late Sir Thomas Lipton and shipped to Liverpool, where it served his intended purpose.

### Popular Anyway

Modern science has struck a blow at apple pie. Dr. Carl R. Fellers of the Massachusetts state college, said apple pie contains only about one-fourth as much vitamin C as the fresh apples with which the pie was made. Vitamin C is a mysterious quality in a food which prevents scurvy.

Developed in England, a new type of autogyro having neither wings nor rudder can hang motionless in the air and land on a tennis court.

### TOWN WILL OPERATE RINK

The skating rink is to be run by the Town this season, under the management of David Hay, according to decision reached by the Town Council. With the rink running as a community affair, and prices reasonable, Mr. Hay hopes to have "everybody" on skates this winter. E. Chalkin is at present employed in making ice, and it is hoped that weather conditions will permit of opening the rink next week.

### MASQUERADE AT CLIVE

FRIDAY, DECEMBER 7

Get your Pirate Costumes ready for the big Treasure Island Dance at Clive on Friday, December 7th. Captain Kidd, and all the other Pirates of the Spanish Main will be there in the big hunt for treasure. Get your outdoors and needles and get to work on a pirate garb and come to this big affair. It should be a picturesque affair. Colorful costumes, black, "villain" muskies and all. Bob Paulsen and his crew of lusty pirates will man the musical part of the programme. Grave penalties will be in store for those who do not come in pirate garb—you may have to "walk the plank", or may be hanged from the "yard arm" or even to the "shutters" if you are not in fitting garb. Costumes need not be elaborate—just pirate costumes of any kind. Valuable prizes will be given.
